

Hello.

Quick Start Guide

Welcome to your new MacBook Pro.

Let us show you around.

This guide shows you what's on your Mac, helps you set it up, and gets you up and running with tips for the apps you'll use every day.

Your battery is charged and ready to go, so you can start using your Mac right out of the box.

When you do recharge the battery, you'll know it's fully charged when the orange light on your power connector turns green.

**SDXC**

Transfer photos from your camera's memory card

HDMI

Connect to your HDTV

USB 3

Charge devices, connect external storage, and more

**MagSafe 2**

Magnetically attach the power cord

Thunderbolt 2

Connect external displays and high-performance devices

FaceTime HD camera

Make video calls, capture HD video, and take snapshots

To learn more about ports and connectors, go to support.apple.com/kb/HT2494.

To learn more about the battery, go to www.apple.com/batteries.

Let's get started

Press the power button to start up your MacBook Pro, and Setup Assistant guides you through a few simple steps to get you up and running quickly. It walks you through connecting to your Wi-Fi network and creating a user account for your Mac. And it can even transfer your documents, email, photos, music, and movies to your new Mac from another Mac or PC.

You can sign in with your Apple ID in Setup Assistant. This automatically sets up your account in the Mac App Store and the iTunes Store, and in apps like Messages and FaceTime, so they're ready the first time you open them. It also sets up iCloud, so apps such as Mail, Contacts, Calendar, and Safari have all your latest information waiting for you. If you don't have an Apple ID, you can create one in Setup Assistant.

To learn more about transferring files to your new Mac, go to support.apple.com/kb/HT4889.

Control your Mac with Multi-Touch gestures

You can do a lot of things on your MacBook Pro using simple gestures on the trackpad. Here are some of the most popular ones.

Click

Press down anywhere on the trackpad to click. Or, with Tap to Click enabled, simply tap the surface.

Secondary click (right click)

Click with two fingers to open shortcut menus. Or, with Tap to Click enabled, tap two fingers anywhere.

Two-finger scroll

Brush two fingers along the trackpad to scroll in any direction—up, down, or sideways.

Swipe to navigate

Swipe with two fingers to flip through webpages, documents, and more.

Pinch to zoom

Zoom in and out of photos and web pages more precisely by pinching your thumb and finger.

Learn more

To learn more about gestures, choose System Preferences from the Apple menu and click Trackpad.

Get to know your desktop

The desktop is where you can find everything and do anything on your Mac. The Dock at the bottom of the screen is a handy place to keep the apps you use most. It's also where you can open System Preferences, which lets you customize your desktop and other settings on your Mac. Click the Finder icon to quickly get to all your files and folders.

The menu bar at the top has lots of useful information about your Mac. To check the status of your wireless Internet connection, click the Wi-Fi icon. Your Mac automatically connects to the network you chose during setup. You can also find anything on your Mac using Spotlight Search.

Keep your devices working together, with iCloud

iCloud lets you access your music, photos, calendars, contacts, documents, and more from your Mac, iPhone, iPad, iPod touch, and even your PC. And it keeps everything up to date automatically. Buy a song on one device, and it's instantly available on all your other devices. Create a new Pages document on your Mac, and you can make edits with your iPad on the go. Take a photo with your iPhone, and it automatically appears in iPhoto on your Mac. iCloud can even help you locate and protect your Mac if you ever misplace it. To choose the iCloud features you want to enable, select System Preferences in the Dock and click iCloud.

Quickly find the app you want

Your Mac comes with great apps you can use to make the most of your photos, create documents, browse the web, manage your schedule, and more. Launchpad is where you can easily find all the apps on your Mac. Click the Launchpad icon in the Dock to see a full-screen display of all your apps. Arrange apps any way you want, group them in folders, or delete them from your Mac. When you download an app from the Mac App Store, it automatically appears in Launchpad.

Open Launchpad

Click the Launchpad icon in the Dock.

Folders

Group apps in folders by dragging one app on top of another.

An important note

Please read this document and the safety information in the *Important Product Information Guide* carefully before you first use your computer.

Learn more

You can find more information, watch demos, and learn even more about MacBook Pro features at www.apple.com/macbookpro.

Help

You can often find answers to your questions, as well as instructions and troubleshooting information, in Help Center. Click the Finder icon, click Help in the menu bar, and choose Help Center. You can also use Safari to get online help.

OS X Utilities

If you have a problem with your Mac, OS X Utilities can help you restore your software and data from a Time Machine backup or reinstall OS X and Apple applications. If your Mac detects a problem, it opens OS X Utilities automatically. Or you can open it manually by restarting your computer while holding down the Command and R keys.

Support

Your MacBook Pro comes with 90 days of technical support and one year of hardware repair warranty coverage at an Apple Retail Store or an Apple Authorized Service Provider. Visit www.apple.com/support/macbookpro for MacBook Pro technical support. Or call **1-800-275-2273**. In Canada, call **1-800-263-3394**.

Not all features are available in all areas.

Safari

Safari is the best way to surf the web on your Mac. Start by typing a search term or web address in the Smart Search field—it knows the difference and will send you to the right place. You can save pages to your Reading List to read later, and

check out Shared Links for pages posted by people you follow on Twitter and LinkedIn. And Safari works with iCloud to keep your bookmarks, Reading List, and website passwords up to date across all your devices.

Top Sites

Click to see previews of the websites you visit most often.

Share

Easily send webpages or share them with your social networks.

Sidebar

Your bookmarks, Reading List, and Shared Links appear in the Sidebar.

The screenshot shows the Condé Nast Traveller website. On the left, there's a sidebar with "Top Sites" showing recent visits to [www.cntraveler.com](#), [www.cntraveler.com/recommended/itineraries/us-vegas-to-new-mexico-road-trip](#), and [www.cntraveler.com/travel-advice/destinations/usa/monument-valley](#). Below that is a "Share" button. The main content area features the magazine's logo, a search bar, and a "IN THIS ISSUE" section with "The Hot List" and "The world's most exciting new hotels". A large image of Monument Valley is displayed with a caption "Leaving Las Vegas" and a photo credit "Photo by Brown Cannon III". To the right, a sidebar displays "Reading List" items and "Shared Links" from users like Jane Applesseed, Erin Steed, and Daniel Carter. A "SUBSCRIBE NOW" button is also visible.

Mail

Mail lets you manage all your email accounts from a single, ad-free inbox, even when you're not connected to the Internet. It works with popular email services like Gmail, Yahoo! Mail, and AOL.

One-stop email

View all your accounts in Mail for one-click access.

Conversation view

See all the email messages from a conversation thread.

Search

Quickly narrow search results to find exactly what you want.

The screenshot shows the Mail application interface. At the top, there's a navigation bar with 'Show' and other tabs. Below it is a toolbar with icons for 'Compose', 'Reply', 'Forward', etc. The main area displays a list of emails in a 'Conversation view'. Each email has a subject, sender, and timestamp. Some emails have attachments indicated by small icons. To the right of the list, there's a preview pane showing the content of the selected email, which is a message from Erin Steed about a Guatemala trip. The preview pane includes the recipient, subject, date, and the body of the email. At the bottom, there's a large image preview of a Mayan pyramid under a blue sky.

Yeah, you would've loved it, Michael. We spent most of the vacation hiking, but we had a few days where we just hung out in the city. If we put a trip together for next year, I'm definitely in. Let's do it!

Erin Steed June 10, 2013 7:11 AM
Re: Guatemala Trip Photos
To: Michael O'Neal

Hi, Michael. Here's a photo of us on one of our many excursions through the countryside of Guatemala. We had the most awesome week. Wish you could've come along. Hope all is well back home.

Calendar

Keep track of your busy schedule with Calendar. You can create separate calendars—one for home, another for school, and a third for work. See all your calendars in a single window, or choose to see just the ones you want. Create and send invitations, then see who

has responded. Add a location to an event, and Calendar will include a map, calculate travel time, and even display the weather forecast. Use iCloud to automatically update calendars on all your devices or share calendars with other iCloud users.

Add an event

Double-click in a calendar to create a new event.

Event inspector

Calendar shows an event's location on a map and calculates travel time.

Calendar view

Select the view you prefer—day, week, month, or year.

The screenshot shows the OS X Calendar application interface. The main view displays a weekly calendar from June 9 to June 15, 2013. Various events are listed with their start times and descriptions. On June 13, a context menu is open over the event "Workshop at Museum". The menu includes options such as "Edit Invitations", "Add Notes, Attachments, or URLs", and "Add Travel Time". Below the menu, a map is displayed showing the location of the event at "De Young Museum, 16-72 Hagiwara Tea Garden Dr, San Francisco, CA 94118". The travel time for this event is calculated as 21 minutes. Other events shown include "Community Service Event" on June 15, "Breakfast with Andrew" on June 13, and "Adam's Birthday Party" on June 12.

Date	Event	Description	Start Time
June 9	Filters		8 AM
June 9	Weekly Staff Meeting		8 AM
June 9	Neighborhood Council Community Center		10 AM
June 9	Client Pitch		10:30 AM
June 9	Lunch with Kirk	With Kirk Suddeth at New Montage	11:30 AM
June 10	Travel Time	From De Young Museum to Hayes High School, San Francisco, CA 94118	1 PM
June 10	Workshop at Museum	De Young Museum, 16-72 Hagiwara Tea Garden Dr, San Francisco, CA 94118	1 PM
June 11	Adam's Birthday Party	At Adam's house	2 PM
June 11	Pick Up Camera Rental		2 PM
June 12	Customer Practice	At Memorial Park	3 PM
June 12	Softball Practice		3:30 PM
June 13	Work on Presentation for Conference		10:15 AM
June 13	Workshop at Museum	De Young Museum, 16-72 Hagiwara Tea Garden Dr, San Francisco, CA 94118	11 AM
June 13	Breakfast with Andrew		11:45 AM
June 14	Prepare Training Plan	At My office	10 AM
June 14	Lunch with Sydney		12 PM
June 15	Community Service Event	At Community Center	8 AM

Messages

Just log in with your Apple ID, and you can send unlimited messages, including text, photos, videos, and more, to your friends on a Mac, iPad, iPhone, or iPod touch. With iMessage, you can even start a conversation on one device and

pick it up on another. And if you want to talk to someone face to face, you can start a video call* just by clicking the FaceTime icon in the top-right corner of the Messages window.

Replies in progress

Three dots mean your friend is typing a reply.

FaceTime

Start a video call right in Messages.

*Requires FaceTime-enabled device for both caller and recipient. Not available in all areas.

Maps

Explore new destinations and get directions on your Mac with Maps. View locations using standard or satellite imagery, or use Flyover to soar through select cities in photorealistic 3D. You can look up information for local points of interest like restaurants and hotels,

and Maps shows you phone numbers, photos, and even Yelp reviews. Once you find your destination, Maps provides point-to-point directions that you can send to your iPhone for turn-by-turn voice navigation.

Directions

Maps provides detailed directions, including traffic information.

Send to iPhone

Send directions to your iPhone for voice navigation on the way there.

Bookmarks

Bookmarks are pushed to all your devices.

The screenshot displays the OS X Maps application interface. At the top, there are three tabs: "Standard", "Hybrid", and "Satellite". Below the tabs, a search bar shows the start location as "California Academy of Sciences" and the end location as "Seven Hills". A "Clear" button is also present in the search bar area. To the right of the search bar, there is a "Get Directions" button. The main window shows a map of San Francisco with a blue route line. The route starts at the California Academy of Sciences and goes through various neighborhoods like Russian Hill, North Beach, Chinatown, and the Financial District, ending at Seven Hills. Along the route, there are several green callout boxes with turn-by-turn directions. For example, one box says "At the end of the road, turn right onto John F Kennedy Dr". Another box says "Continue onto Oak St". There are also boxes for "Turn left onto Masonic Ave", "Turn right onto Euclid Ave", "Turn left onto Van Ness Ave", "Turn right onto Pacific Ave", "Turn right onto Hyde St", and "Arrive at the destination". The map also features a legend for "Start", "End", "Suggested Routes", and "Current Location". The bottom right corner of the map area has a note: "Seven Hills — 1550 Hyde St, San Francisco, CA 94109-3114, United States".

iBooks

iBooks is a novel way to download and read books. It includes the iBooks Store, where you can download the latest best-selling books or your favorite classics. Click a book to open it. Flip through

pages with a swipe or a click. It's easy to add notes and bookmarks, and even highlight passages. Books purchased from the iBooks Store are available on your Mac and iOS devices.

iBooks Store

Books downloaded from the iBooks Store are stored in iCloud.

Notes Panel

View and edit all your notes and highlights in one place.

Search

Quickly search through an entire book for a word or phrase.

The screenshot shows the iBooks application window. At the top, there's a menu bar with options: File, Edit, View, Store, Window, Help, and a search field. Below the menu is a toolbar with various icons. The main content area displays the title 'CHAPTER 2' and 'Introduction to Ecology' in large white text against a blue-toned landscape background. Below the title is a list of chapters: 2.1 An Ecological View, 2.2 The Biology of Place: Biomes and Landscapes, 2.3 A Guided Tour of a Dynamic Landscape: Gorongosa, 2.4 Review, and 2.5 Project-Based Learning: Ecological Surveys. At the bottom of the page, there are small thumbnail previews of the first few pages of the book. A blue dashed box highlights the 'Store' option in the menu bar. Another blue dashed box highlights the 'Notes Panel' on the right side of the screen. A third blue dashed box highlights the 'Search' bar at the top of the right sidebar.

iTunes

iTunes for Mac makes it easy to enjoy your favorite music, movies, TV shows, and more. iTunes includes the iTunes Store,

where you can find new favorites and download them with a click. In addition, iTunes includes iTunes Radio, a new way to discover music.

Your library

View your music, movies, TV shows, podcasts, and more.

iTunes Radio

Choose from over 200 stations or start a new one from your favorite artist or song.

iTunes Store

Discover and buy new music, movies, and more.

The screenshot displays the iTunes application window on a Mac OS X desktop. At the top, there's a navigation bar with tabs for Songs, Albums, Artists, Genres, Playlists, Radio, and Match. A search bar labeled "Search Library" is positioned at the top right. Below the navigation bar, the main content area is divided into three sections by dashed blue lines:

- Music Library:** Shows a grid of album covers for various artists like The Strokes, Depeche Mode, The Thermals, Jack Johnson, and Lady Antebellum.
- iTunes Radio:** A section titled "iTunes Radio" with a callout bubble, featuring a list of stations: "A Color Map of the... Pretty Lights", "Absolute Zero Little Green Cars", "As It Is On Earth Spoonhead", "Bankrupt! Phoenix", "Based On a True St... Muse Shonen", "The Blessed Unrest Sinead O'Connor", "Borderland The Chieftains", "Carry Me Back Old Crow Medicine Show", "Clara Clara", "Comedown Machine The Strokes", "Dad County Jonny Fritz", "Delta Machine Depeche Mode", "Desperate Ground The Thermals", "Excuse My French French Montana", "From Here to Now... Jack Johnson", "Golden Lady Antebellum", "Half of Where You... Gold Panda", "Here's to the Good... Florida Georgia Line", "Honky Tonk Son Volt", "Images du futur Bourne", "Last of the Great... Matt Nathanson", "Love Lust Faith... Thirty Seconds to Mars", "Matt Costa Matt Costa", "Native OneRepublic", "Night Visions Imagine Dragons", "Old Yellow Moon Emmylou Harris & Roy... Olympia Astaire", "Preachers My Jerusalem", "Surfer Blood Pythons", "Random Access M... Darien Park", and "San Cisco San Cisco".
- iTunes Store:** A section titled "iTunes Store" with a callout bubble, showing a list of items: "Carry Me Back Old Crow Medicine Show", "Clara Clara", "Comedown Machine The Strokes", "Dad County Jonny Fritz", "Delta Machine Depeche Mode", "Desperate Ground The Thermals", "Excuse My French French Montana", "From Here to Now... Jack Johnson", "Golden Lady Antebellum", "Half of Where You... Gold Panda", "Here's to the Good... Florida Georgia Line", "Honky Tonk Son Volt", "Images du futur Bourne", "Last of the Great... Matt Nathanson", "Love Lust Faith... Thirty Seconds to Mars", "Matt Costa Matt Costa", "Native OneRepublic", "Night Visions Imagine Dragons", "Old Yellow Moon Emmylou Harris & Roy... Olympia Astaire", "Preachers My Jerusalem", "Surfer Blood Pythons", "Random Access M... Darien Park", and "San Cisco San Cisco".

At the bottom of the iTunes window, there are buttons for "CREATE PLAYLIST", "SEARCH", and "REFRESH".

iPhoto, iMovie, and GarageBand

iPhoto, iMovie, and GarageBand give you amazing ways to create and share your photos, movies, and music. iPhoto helps you organize your library by Faces, Places, and Events, and create gorgeous photo

books, cards, and calendars. iMovie lets you turn your home videos into epic movie trailers. And GarageBand has everything you need to learn to play an instrument, write music, or record a song.

Pages, Numbers, and Keynote

Create stunning documents, spreadsheets, and presentations on your Mac. Beautiful templates give you a great head start—simply add your own words and photos. And customizing everything is a snap

with the new context-sensitive Format Panel. You can even open and edit Microsoft Office files. And you can quickly and easily share a link to your work via Mail or Messages, right from your toolbar.

Add graphics and more

Create media-rich documents with images, movies, charts, and more.

Share

Easily share a link to your work with Mail or Messages.

Format Panel

Your tools are just a click away with the intelligent Format Panel.

The screenshot shows the Pages application interface. On the left, there's a sidebar with a thumbnail preview of the document and five smaller thumbnail previews below it. The main content area displays a magazine-style spread for 'INTERNATIONAL KITE ENTHUSIASTS SPRING/SUMMER'. The left page features a large, colorful illustration of a traditional Chinese dragon kite against a blue background. The right page has a red sidebar with white text: 'FLYING HIGH IN DANSHUN' and 'A traveler's guide to one of Asia's largest kite festivals.' At the bottom of the right page is a red box containing the text 'INSIDE: FESTIVAL & EVENT GUIDE'. On the far right, a large portion of the screen is occupied by the 'Format' panel, which includes tabs for 'Text', 'Image', and 'Table'. The 'Text' tab is active, showing settings for 'Font' (set to 'Avenir Next'), 'Style' (set to 'Regular'), 'Size' (set to 22), and 'Color' (red). Other tabs include 'Layout' and 'More'. Below these are sections for 'Alignment' (set to center), 'Text Spacing' (set to 0.0), and 'List' (set to 'None').

Mac App Store

The Mac App Store is the best way to find and download apps for your Mac, from games and social networking to productivity apps and more. In one step, new apps install and appear in Launchpad. You can install apps on every Mac authorized

for your personal use and even download them again. The Mac App Store lets you know when app and OS X updates are available, and can even update your apps automatically. Open the Mac App Store by clicking its icon in the Dock.

Discover new apps
Browse thousands of apps and download them straight to Launchpad.

Always up to date
Updates to your purchased apps and OS X appear automatically.
